

MATTERN FORCED DOWN IN SIBERIA

Mollisons Crash At Start Of Hop To New York

Noted Air-Pair Escape Injuries In Bad Crack-up

Ambitious Flight Plans of British Super-Aces of Long Distance Aviators Come to Grief—Heavily Loaded Machine Hits a Bump and Landing Gear is Completely Torn Away.

CROYDON AIRPORT, England, June 8.—Disaster overtook Capt. James A. Mollison and his equally famous flying wife today at the outset of their adventurous attempt to set three new aviation records.

Their large plane, carrying a three-ton load, crashed at the take-off for a flight to New York, whence they planned to fly to Bagdad and then back to England. Neither of the flyers was hurt.

M'KENZIE KING SEES STAND ON TARIFF UPHELD

Lower Tithes Now Demand of World Fighting Depression

By RAY W. BROWN

Canadian News Correspondent BELLEVILLE, Ont., June 8.—In an attack on the "vice of economic nationalism," Prime Minister Mackenzie King, Federal Liberal leader, last night insisted that if the world economic conference is to be a success, much must be done what was done at the Ottawa and London economic conferences, the terms must be uniform. The policy of economic nationalism, he declared, had been at the Ottawa conference and again at the London conference, in which they had arrived only two weeks ago, in a country filled with the highest hopes.

The mishap occurred at 3:30 a.m. (G.M.T.) on Wednesday.

The Mollisons' next attempt is not to be made within a month, as they have ample time to make a complete circle but not a full moon. This gives them ample time for repairs.

FIRST SOLD FLIGHT

Capt. James Mollison became to London Sunday morning, the first westward flight across the North Atlantic last August.

The mishap occurred at 3:30 a.m. by storms.

Mollison set his little gray monoplane down in a New Brunswick swamp, 10 minutes after taking off from Port Marnock, Ireland, and 10 minutes before he had planned to land at the start of his flight.

The first thought was to put through a trans-Atlantic telephone call to his wife, Amy Johnson to whom he had been married only for a week.

Both the Mollisons were uninjured.

The desire of the British delegation had been to secure and give preference to the flight by King and his wife. The present Prime Minister of Canada, on the other hand, had been instrumental in raising taxes against other countries, and finally he had prevailed.

But, declared King today, "the result will be to make us, today, the most popular in the world."

Everyone at the World Economic

FINAL Flashes

CHICAGO, June 8.—Unfavorable weather conditions altered the plan of Major General J. H. MacKenzie, Canadian Minister of National Resources, for a plane flight to Vancouver. The "flying committee" of the Canadian government, which had planned to make the first flight to the west coast city, the commissioner visited the prairie and found the weather in the east yesterday, intending to take the plane to the Rockies, a trip made last year. Poor flying conditions, however, forced him to turn back, and the coast trip will be made by train, his return here expected June 10. The Canadian government also adopted the Canadian resolution giving the committee power to make the final place on his eastward tour.

COCKNEY GUIDES H'ENGLISH ON 'STORIC TOUR OF PARIS

Harder to Understand than If He Spoke French—Par-
is From 'Rubber-neck'

By PIERRE VAN PAASSEN

PARIS, June 8.—"Now, ladies and gentlemen, here we are in Paris!"

That is about

it to commence.

Keep 'er 'ands and feet to the floor of the car so we can see all the sights," said Alvin, the chauffeur, "it's 'er go!"

Thomas, formally color-sergeant of His Majesty's Guards, who had just come out of the car, said, "I'm not a guide, I'm a 'rubber-neck'!"

It was known off in the big San Francisco hotel, "Now we're runnin' along the grand boulevard."

Represent Britain At London Conference

Men prominent in the public affairs of the United Kingdom for many years have been chosen to represent the kingdom at the World Economic Conference, which is to be opened at London on June 20. George V. (1) will officially open the conference which will be under the presidency of Ramsay MacDonald, (2) prime minister of Great Britain. Other members of the British delegation are (4) Sir John Simon, foreign minister in the British cabinet; (5) Major Walter Elliott, minister of agriculture; (6) Neville Chamberlain, chan-

cellor of the exchequer; (7) Lord Halifax, minister of war; (8) Walter Runciman, president of board of trade; (9) Sir Philip Cunard, chairman of the Cunard Line; (10) Sir Ernest Gruening, who said that Sir H. Stanley Baldwin will also take part, although he is not included in the official list of representatives. He will in all probability take over the duties of acting prime minister during the period of the conference; (2) a scene showing the British Houses of Parliament.

COMMITTEE TO PROBE INCOME TAX RETURNS

Senate Grants Power For Inquiry Into Returns

Morgan Passes

WASHINGTON, June 8.—The United States Senate today enacted its committee investigating the tax returns of the nation's leading citizens.

The vote was almost unanimous in the Senate, the motion of P. O. V. Swanson of the Senate Finance Committee, to extend the authority of the committee to inquire into all state tax transactions affecting tax payments.

The chief value of the Mussolini pact is:

(1) It induces collaboration at a moment when Europe is disintegrating.

(2) It pledges regardless of what the world dis-

armament conference does.

Continued on Page 3, Col. 2

Chief Aim Mussolini Pact To Smother War

ROME, June 8.—What is the Mussolini pact? The principal point is collaboration of the four powers—Great Britain, France, Germany and Italy. This already was provided in the 1925 Locarno pact. The Locarno pact and last December's agreement pledging Germany arms equality with France and Britain, and the new pact now make the same arrangement.

The treaty relates to embassies and therefore re-inplements the Locarno pact. The Locarno pact and last December's agreement pledging Germany arms equality with France and Britain, and the new pact now make the same arrangement.

The question is, does the new pact not go beyond the Locarno pact in some breath of articles 10 and 16 of the League covenant safeguarding present frontiers and providing action against aggression?

The chief value of the Mussolini pact is:

(1) It induces collaboration at a moment when Europe is disintegrating.

(2) It pledges regardless of what the world dis-

armament conference does.

Plane Is Slightly Damaged Making Forced Landing

Noted Aviator Comes to Grief Less Than 600 Miles Beyond Omsk—Almost Overcome in Air by Fumes From Leaking Gas Line—Hopes to Continue Within Few Hours.

Copyright, 1933, by the Associated Press.

MOSCOW, June 8.—Gasoline fumes from a leaking gas line, which almost overcame him in the air, forced Jimmie Mattern suddenly to land near Prokopevsk, Siberia, Wednesday, the round-the-world flier told the Associated Press to day.

"I am still sick from those fumes," the Texan said in an exclusive telephone interview. He spoke from Belovo, a workers' settlement near Prokopevsk, where he came down at 10 a.m. Moscow time yesterday (2 a.m. Eastern Standard time), a few hours after he had started from Omsk, Siberia, on the fifth lap of his world's race.

"I can't get my mind on my stomach, but I expect to get to Omsk in five or ten hours," he said.

"I was four hours out of Omsk when I discovered a leak in the gas line. I had to land and found out what the trouble was. I was in bad shape from the fumes."

ALMOST UNCONSCIOUS

The fumes that he almost unconscious when he brought the plane down on a small emergency landing field at Belovo, he said.

"When I landed, I broke my my skull, but I have my skull broken. They have helped me as much as they can, but I am still bad off. I am not able to get off from here, but I have a few hours and run into Krasnoyarsk, where there are facilities for taking care of me."

Asked if he had any sleep, he said, "Not much. I have been working on the ship ever since coming down. I have been sleeping about three hours a day. I'll probably pick up some rest at Krasnoyarsk. How is my plane?"

"It is in bad shape," he said. "I was as bad as I have ever been."

LOVE TRACK OF TIME

He asked the exact time he landed, the flier said, "Hell, I've lost all track of time, but I was just four hours out of Omsk when I found out what had happened and I came down almost immediately."

Having landed at 10 a.m. Wednesday, the Texan time (5:10 a.m. Moscow time), his landing was because he had to break the British arms blockade.

The French were hesitant over security guarantees to which they clung but allowed all obstacles to the Geneva conference "must be removed."

TOAKE PLUNGE

It was stated in the highest quarter of the Foreign Office that the French have decided to make the plunge but are merely waiting for the Germans to do the same.

"The conversations as far as I understand it, have been held in the Foreign Office," said a Foreign Office official. "I don't know much about aviation. The English and the Americans are good people, we will, for us to have a programme and a doctrine."

The task now is to harmonize

THURSDAY, JUNE 8

THE NEW COAL RATE

A freight rate of \$5.50 per ton should enable Alberta operators to secure a larger market in Canada, and the market they have had. Provided United States and British maritime dealers do not cut prices to offset the reduced rates, as they have done on former occasions and are suggested likely to do again.

The Dominion government is to contribute the other \$2.50 per ton which will collect for having the Alberta coal to Ontario. If a bonus of that amount does not enable the trade to establish itself, the conclusion will have to be accepted that a special subsidy will be needed.

The taxpayers of the Dominion would not consent to pay more than that, and could not in reason be asked to.

WHAT IS THE "FORMULA"?

Say, Tidings, Maryland Democrat, says he would "welcome and genius to see how we can get along with only \$70,000,000 in gold, can pay a debt of \$40,000,000 when we won't accept goods in payment."

It is to be hoped the "genius" will appear promptly and show how we can get along. That one of the standard economists of '41 and one that will have to be solved before world conditions can right themselves; unless the United States consents to "accept goods in payment."

Official spokesman hastened to assure Congress that the government had not sought to accomplish foreign debts by canceling or revising them. That rather strengthens than weakens interest in Senator Tidings' power.

If there is any way in which a foreign debt can be paid except in gold or goods, Canada as well as Britain could make use of that information.

TOO MANY TAXES

An ingenious member from Quebec advised the Dominion Government to start a tax-killing campaign. He would abolish all present taxes except customs duties, and excise imports and impose a tax of one cent on all business done through the banks.

This new tax, he suggests, would bring in revenue of \$15,000,000, and could easily collect as practically no expense. That would make it possible to wipe the slate clean in the short end of the war and apply the whole of special taxes that now affect and afflict the public at every turn.

A good deal is to be said off-hand for any scheme that would rid of this epidemic of unnecessary taxes that now afflict from stamps to soap, from deflated stocks to refined sugar, and from tooth paste to toilet paper.

The irksomeness of taxation and the harm that it does, varies with the individual. But also with the man, the tax collector employed in extracting his earnings out of the pocket of the individual. Canadians are both heavily taxed and taxed in too many ways. If a method can be found to consolidate all collections, without unfairly changing the incidence, that would be both popular and profitable.

A one per cent tax on banking business would be paid by the banks. It would be collected by the tax collector, and paid through the bank. It would not reflect the tax burden from the public to the banks, but only change the method of collection and redistributes the levy. The plan will not be adopted by parliament this session, but it at least is a timely suggestion that something should be done to reduce the number of taxes, a subject that is very much worth discussion.

LONDON AND TARIFFS

The United States delegation to the London conference, now en route under the leadership of Secretary Hull, seems to have only modified enthusiasm for the reduction of tariffs as a measure of help to world commerce.

The British delegation, which the delegates have been telling the railways about ship and have reached the conclusion that there is an opportunity for tariff readjustments of mutual benefit, without impairing corresponding sacrifices. They have, however, been told that the time has stressed too much, and that much can be done in the way of taking without really giving anything.

If that is the notion with which the delegations of other countries assemble in London, the outlook for world-wide peace in trade, is not very bright. Undoubtedly there are items in every tariff on earth that do little or no good to anybody; Canada's tariff bribe with them. These should be eliminated, but it is not always the best idea to have an international tariff.

But if in every country every interest that has been created by protective tariff is to be considered a "vested" interest, and guaranteed immunity from foreign competition, the conference will not act far enough to make any notable difference to inter-

national trade. These interests have been built up at the expense of other nations, and in some cases, more valuable than themselves. If minor industries must continue to be made profitable at the expense of major industries, what can there be of resurrecting world trade?

In the case of Canada, the bold question is to what extent the government is prepared to sacrifice the protective feature of the tariff policy in order to gain markets for the wheat, lumber, minerals, fish and manufactured goods with which four years ago we supplied foreign markets to the tune of \$1,000,000,000, and which we sold at the amount of just \$400,000,000.

That loss of two-thirds of our export trade is not to be recovered by striking out of our tariff items which do not mean anything. Nor are the countries that have been so generous as to make up by any such trifling adjustments. If the London conference is to amount to anything it will have to go at it with an axe, and leave minor tariff-made interests to look after themselves.

Forty Years Ago

From the files of the Edmonton Bulletin

Telegraphic—

Edwin Booth died on Wednesday.

It looks as if Britain will win in the Behring sea arbitration.

The Northern Pacific and Red River elevator companies, controlling principal elevators in Minnesota, have been merged.

The Cumberland of Winnipeg has been appointed judge of the western judicial district of Manitoba.

The financial crisis is assuming larger proportions in the States. There have been many runs on bank accounts.

The Northwest Central directors had a stormy meeting and a big quarrel at Ottawa on Tuesday, and further delay will follow.

The next reciprocity convention will be held at Duluth. James Fisher, M.P.P. for Russell, Manitoba, was elected president.

Sir John's grave was decorated on Tuesday, the anniversary of his death.

THIRTY YEARS AGO

Telegraphic—

The minister of railways announced that the C.N.R. will be built to Hudson Bay and a land grant of \$6,000,000 acres.

Many women and children were thrown into the water when a dock collapsed at Lorne Park near Toronto.

Five hundred new coke ovens will be established—250 per month—and the market will collect for having the Alberta coal to Ontario. If a bonus of that amount does not enable the trade to establish itself, the conclusion will have to be accepted that a special subsidy will be needed.

The taxpayers of the Dominion would not consent to pay more than that, and could not in reason be asked to.

WHAT IS THE "FORMULA"?

Toy Balloon Science Boon

RAILWAY LINES ACQUIRED FOR MILLION CASH

Total Sum Van Sweringen
gens Paid in Building up
Vast Domain

WASHINGTON, June 7.—One million dollars was all the cash that O. P. Van Sweringen, his brother and associate, had put into acquiring railway interests which now have expanded to one of the most vast in the country.

The brothers, headed by O. P. Van Sweringen in testing testimony in the Senate investigation of railroads, the Morgan and Company in building up the extensive Van Sweringen rail domain.

Van Sweringen paid the sum, the amount yesterday by counsel for the Senate Committee, and said he could not say more.

"I read over your question and am pleased to say I can answer from my knowledge of the results of the morning's examination."

"The amount of dollars was \$1,000,000. I have a brother and my associates started back in 1916."

J. P. Morgan and his counsel said the brothers had been in touch, as did another crowd that jammed the hot hearing room.

Freight Rates

A moment before, the investigators had agreed unanimously on terms of resolution to be presented to the Senate, which was seeking wide power to go into income tax returns of Morgan partners, and that the brothers, bearing on the payments made Chairman Fletcher predicted it would be approved by the Senate without delay.

"You are satisfied with the committee's action," Pease was asked.

"I think so," he smiled.

The matter-of-fact answer by Van Sweringen was the first to get to get a start in railroading testifying to the Senate's interest in seeking the audience to more closely attend to the payments made since he first took the stand.

HIS BARK WORSE THAN HIS BITE

No bite-and-run dog is "Brandy," who was owned by 18-year-old Miss Linda Lee. Picture here between barks at the camera. Linda Lee, known as "Brenda" is as comely miss as she is to him to the home of 8-year-old Anna, which, when he was bitten while she was playing in the Yards Park. The little appearance of dog and owner saved little Anna from undergoing a dozen painful and unnecessary inoculations, which physician had ordered when the whereabouts of the dog which nipped her could not be ascertained. A veterinarian's certificate proves Brandy is free from any disease symptoms.

VAGARIES OF UPPER WINDS ARE SHOWN

Rubber Spheres Are Turned ed Loose in Canada and China

VANCOUVER, June 8.—Little toy balloons, the kind they distribute at cabarets on new year's eve, are an important bit of scientific apparatus, it was announced at the Pacific Scientific Congress gathering here this little six-inch rubber spheres released from observatories in Canada and elsewhere, are blown away on the wind and demonstrate as nothing else can the vagaries of the climate and weather and agriculture of China.

"In China it is the wind that describes what kind of cloth the people will be wearing in the spring, and of crop they should plant in spring," declared Dr. Coching Chiu, director of the Chinese Research Institute of China at Nanjing, in discussing the results of the Balloon Experiment. He told them, he said, to find out about the movement, the dominant factor in the climate and weather and agriculture of China.

MONSON CHARACTERISTICS

The general characteristics of the monsoon are that it blows from north to south in China for six months of the winter season when it turns around and blows from south to north for the six months of summer.

It was pointed out that the monsoons do not have uninterrupted sway over the climate and weather, but are frequently interrupted and interrupted by cyclones and other disturbances, the study of which is of tremendous importance.

CLUE TO STORMS

The clue to the mysteries of changes lies in the Aller levels, the free air, sea and airways of the United States of California.

That is where the balloon comes in and John Patterson, of Toronto, told the meeting that the conditions in observations taken at Victoria and Edavon, only a short distance from Victoria, and the weather conditions correspond closely with those of the whole North Pacific coast. Victoria, he said, is quite different.

"By the use of a full mathematical problem we are trying to solve," Mr. Patterson said.

LIMITING WHEAT ACREAGE FAVORED

TORONTO, June 8.—There is a strong feeling in the west that some kind of a national or international agreement to bring the production of wheat more in line with world consumption," said Premier J. E. Brownlee of Alberta in an interview yesterday.

"All we can do," Mr. Brownlee said, "is to express ourselves in favor of the principle of the limitation of wheat acreage in Canada, United States, the Argentine and Australia. When action is taken it will have to be by the International Economic Conference. We simply reported to the Prime Minister that the Canadian government favored such limitation."

Meeting in the club rooms, fourth floor Civic block, on Tuesday afternoon, members of the Edmonton Club, the Canadian Club of June, to be held in the club rooms, and a picnic for July. The discussion will be enjoyed at the tea.

Rough fodder in the form of prairie wool and the cheaper grades of hay have been in good demand in the southern areas of the three Prairie provinces.

U.S. motorists paid \$1,099,232,441 in motor vehicle taxes during 1932.

Reorganization Scientific Units Is Recommended

OTTAWA, June 8.—Reorganization of economic and scientific research units within the empire, with the cost borne partly by the members themselves, is recommended in a report of the Imperial committee on economic consultation and co-operation, made public Wednesday.

The committee, marketing board, set up by the United Kingdom government in 1928, in lieu of empire preference, would not grant at that time, will have its scope considerably narrowed.

Establishment having disappeared with the granting of reciprocal preference at the Imperial conference last summer.

"The most important recommendation is to

the effect that the members of the committee be given a choice of either

the existing units or a new one.

It is recommended that the members of the committee be given a choice of either the existing units or a new one.

Witness Heard Two Prices Charged For Raw Milk

Proof Unavailable States Secretary Of Association

Important Probe Is Con- tinuing at Local Court House

Although he had heard that some farmers had sold for one price in the morning and another on the way home at night, he could not prove it, he declared. J. H. Ritchie, secretary-treasurer of the Edmonton Milk Producers' Association before the Board of Public Utilities Commissioners inquiry into the milk price situation in Alberta at the court house on Wednesday.

His statement was in answer to a question by Mr. B. M. Scarborough.

Mr. Ritchie who was on the stand throughout the day, was still standing testimony when the hearing adjourned.

Hearing of evidence was resumed at 10 a.m. yesterday.

Asked by R.H.M. Bailey for the Edmonton milk producers to give information on the production, Mr. Ritchie said that last year the price to the producer should have been increased to 15¢ per 100 pounds to \$1.85 instead of 12¢.

SEEMS THAT WAY

Asked if the Edmonton district producers always had their own supply, Mr. Ritchie replied, "It seemed that way."

In answer to a question by the attorney general, asking if the surplus should be kept on the farm and not sent to market, Mr. Ritchie said that farmers could not get along without money from milk.

Those who buy surplus, said Mr. Ritchie, against the price paid by the distributor for the surplus, but he could not say that it was not a factor in setting city milk prices.

Mr. Ritchie further stated that if he did not know of any cases of producers who had sold to the association to the association who had started business as retailers.

Mr. B. M. Scarborough, if producersellers who cut out prices were the greatest menace to the whole price structure, and that the milk sheet and Mr. Ritchie replied, "I haven't the slightest doubt of it."

FOR UNION

"What are you going to do with the producer-retailer?" asked Mr. Frawley.

Mr. Ritchie replied that he was hopeful of obtaining from the board an order that milk sold off wagon should be subject to the same regulations applying to both big and small wagons.

It was essential, he said, to have a uniform system of taxation for the market, and the Edmonton and Saskatchewan markets for this manner of selling.

On his trip to Europe, Mr. Burrell said, he will be absent from the city until Aug. 15.

STOCK YARDS MANAGER WILL TOUR EUROPE

Arthur W. Burrell to Study Cattle Marketing Methods

Livestock marketing methods in western Canada may be revolutionized as a result of plans which have been made to market for some time past and which are reaching maturity in the approach.

W. H. Shepherd of this city was elected in the executive of the Canadian Manufacturers Association at its annual meeting held here on Wednesday. It was the 62nd annual convention of the organization.

Directors of the Unemployment Service Plan will meet at 8 p.m. in the Plan's headquarters, 1079 100A Street, on Friday, June 10, with R. C. McLean in chair.

Meetings in connection with the unemployment work scheme will be discussed at the meeting.

REVIEW SYSTEM OF COLLECTING TAXES IN CITY

Some Financial Induc- ment to Taxpayers to Meet Assessors Likely

For the review of the city tax collection system made at the regular meeting of the civic finance committee at 7 p.m. yesterday afternoon, it was reported in a motion that the committee report progress in its consideration of this question and recommended to council that commissioners and the city tax collector offer taxpayers some financial inducement to meet tax assessors.

W. J. Brady, president of the committee, said that the city tax collector, with the help of his assessors, could not get along without money from milk.

Those who buy surplus, said Mr. Burrell, against the price paid by the distributor for the surplus, but he could not say that it was not a factor in setting city milk prices.

Mr. Burrell further stated that if he did not know of any cases of producers who had sold to the association to the association who had started business as retailers.

Mr. B. M. Scarborough, if producersellers who cut out prices were the greatest menace to the whole price structure, and that the milk sheet and Mr. Ritchie replied, "I haven't the slightest doubt of it."

"What are you going to do with the producer-retailer?" asked Mr. Frawley.

Mr. Ritchie replied that he was hopeful of obtaining from the board an order that milk sold off wagon should be subject to the same regulations applying to both big and small wagons.

It was essential, he said, to have a uniform system of taxation for the market, and the Edmonton and Saskatchewan markets for this manner of selling.

On his trip to Europe, Mr. Burrell said, he will be absent from the city until Aug. 15.

Police Court

With no shoes on their feet and their toes protruding from holes in their socks, Harold J. Olson and his wife were arraigned in police court Thursday morning, on charges of possession of 3,000 yards of clothing. Admission of the charge was made by Col. G. C. Lee, at the request of the prisoner.

The couple, who had been married for 10 years, were arraigned in police court.

Olson and Watson were found in a 67 street rooming house in West End, according to the police. Frank Peterham and Detective Frank Kingford, of the 10th Division, said the two men were held for investigation.

Mountie Police identified the man as a 30-year-old man, recently taken when a last week.

Olson, 28, of 10th Street, was led back to the cells "about my feet," they said. "He didn't care how they treated him," he said. "He used to go around barefoot," as he stuck a stocking over the toe of his last prisoner's box.

He didn't care how they treated him, he said, according to Prosecutor Becker, speaking both to the court and to the accused. "The shoes were stolen, he was not returned to the original owners."

"But we can't around like that," he said. "He used to go around barefoot," as he stuck a stocking over the toe of his last prisoner's box.

Well, we can't go around like that," he said. "He used to go around barefoot," as he stuck a stocking over the toe of his last prisoner's box.

Well, we can't go around like that," he said. "He used to go around barefoot," as he stuck a stocking over the toe of his last prisoner's box.

Well, we can't go around like that," he said. "He used to go around barefoot," as he stuck a stocking over the toe of his last prisoner's box.

Well, we can't go around like that," he said. "He used to go around barefoot," as he stuck a stocking over the toe of his last prisoner's box.

Well, we can't go around like that," he said. "He used to go around barefoot," as he stuck a stocking over the toe of his last prisoner's box.

Well, we can't go around like that," he said. "He used to go around barefoot," as he stuck a stocking over the toe of his last prisoner's box.

Well, we can't go around like that," he said. "He used to go around barefoot," as he stuck a stocking over the toe of his last prisoner's box.

Well, we can't go around like that," he said. "He used to go around barefoot," as he stuck a stocking over the toe of his last prisoner's box.

Well, we can't go around like that," he said. "He used to go around barefoot," as he stuck a stocking over the toe of his last prisoner's box.

Well, we can't go around like that," he said. "He used to go around barefoot," as he stuck a stocking over the toe of his last prisoner's box.

RESTRICTION ARMS FAVORED BY DOMINION

Canada's Attitude on Vital
Question Given at
Confederation

GEORGE RIVER—Canada is convinced the manufacture of arms should eventually be restricted to state-owned establishments. The Diamond Conference was addressed Wednesday.

This was announced by Dr. W. A. Riddell, Minister of Defense, in answering a question put to

all governments at whether the private manufacture of arms should be prohibited.

Great Britain, Germany and Japan opposed the abolition of private manufacture of arms, supported themselves in favor of control.

STATE OWNERSHIP

Dr. Riddell asserted that Canada does not believe state ownership is necessary in order to remove one of the dangerous factors in international affairs, the gain from manufacture of arms and the sale of them.

He declared that Canada regards the internationalization of the manufacture of arms as the main objective.

Announcement of Canada's attitude on this vital question came in connection with the regulation of the traffic in arms.

Captain Anthony Eden, British

under-secretary for Foreign Affairs,

in answering a question put to

the dominion bids fair to do at

the Conference.

He declared that Canada regards

the internationalization of the manufacture of arms as the main objective.

Announcement of Canada's attitude on this vital question came in connection with the regulation of the traffic in arms.

The meeting concluded with adoption of a resolution requiring the dominion to support the world disarmament conference, to carry on negotiations with interested delegations on the question.

PEACE RIVER, June 8—Decided to officiate to discontinue in office as mayor of the town. Wm. S. Lipsey, recently appointed magistrate, will assume the mayoralty in the hands of the council and at a special meeting of that

body. Acting under the provisions of the town act whereby a member of the council is selected to fill the unexpected term of the retiring mayor, Mr. W. H. Chapman, Chas. C. Lipsey, to the chair was made

thereby creating a vacancy in the council necessitating an election in the next few months.

Mr. Lipsey was elected in February last by acclamation for a two-year term so that Mr. Lipsey will carry on until February, 1933.

Mr. Lipsey has been a member of the town council for the past 10 months and was elected to the health and sanitation committee.

His selection as mayor by the private and state manufacture of arms should be removed.

Mr. Lipsey has met with the people

of the town and the representatives

of the world came to him.

He was in the hotel business here for over 10 years but disposed of his hotel December 1, 1931.

He recently

acquired the Covalt property.

EDMONTON BULLETIN

Canada's Ship Of Business Sailing To Prosperity Sea

By JACK HARRISON, Writer

TORONTO, June 8—Canada's ship of state is sailing toward the port of prosperity.

Trade is bad, but there are reefs and shoals, and it's all plain sailing, but barring disaster the dominion bids fair to do at good business points with new confidence.

The fact the decision is passing

in the House of Commons to

the annual general meeting

of the Canadian Manufacturers

and Traders Association.

THURSDAY, JUNE 8, 1933

BOATS TO LEAVE FOR GREAT BEAR

PEACE RIVER, June 8—Girouard Bros. & McLean are busily preparing the boats of the Bear Lake Company preparing to leave for the Great Bear Lake country.

They have almost completed construction of the boats and will be propelled by a gasoline engine.

It is expected that Girouard Bros. & Walker, with his son Deauville and the Beaulah boat will leave here together next week for the far north.

In the last 15 years 325 persons have been killed in auto accidents.

Boat clubs have been elected this year in Riga, Latvia, in Tangier, Morocco International Zone, and

there have been almost a hundred new boat clubs elected of them in Europe where the number of new clubs this year is double that of

officers report to the 24th annual

convention of Rotary International

here June 26-30.

The boat clubs in the number of new

clubs elected to membership

the past twelve months is ap-

proximately fifty per cent greater

than last year.

Mr. Lipsey, to the chair was made

thereby creating a vacancy in the council necessitating an election in the next few months.

Mr. Lipsey has been a member of the town council for the past 10 months and was elected to the health and

santization committee.

His selection as mayor by the

private and state manufacture of arms should be removed.

Mr. Lipsey has met with the people

of the town and the representatives

of the world came to him.

He was in the hotel business here for over 10 years but disposed of his hotel December 1, 1931.

He recently

acquired the Covalt property.

"Undeniably

the fact the decision is passing

in the House of Commons to

the annual general meeting

of the Canadian Manufacturers

and Traders Association.

Parts of the country comes out of

the world dis-

armament conference.

The meeting concluded with adoption of a resolution requiring the dominion to support the world disarmament conference, to carry on negotiations with interested delegations on the question.

A Timely Clearaway—Exciting Mark-Downs!

9 o'Clock Bargain! Dresses Reduced

Rough Crepes in Plain Shades or Summer Prints

Dark dresses for light days — at a saving to brighten vacation schemes and plans. Smart for the office, for traveling, for a day's shopping — a glance of the fabrics and styles assures you they were made to sell at dollars more!

Prints, contrasting colors, or touches of crisp white "sheers" give amazing variety. There are even some little woolen dresses included. Sleeves are mostly long — or in novel puffs and flares. Rough crepes, or smooth supple fabrics, in both the prints and the monotone crepes. A wonderful array of sizes to 44. Shop the lot of NINE O'CLOCK, FRIDAY BARGAIN.

\$1.95

—Dresses, Second Floor

Larger House Frocks at a Lower Price

A Rare Bargain Event Too Good to Miss

The prints are cool two-tone effects in a dark or a bright shade with white — white piping or broadcloth as summery accents. "Glenlade" prints mean permanence of color and texture. Sizes 44 to 53. FRIDAY BARGAIN.

\$1.19

—House Frocks, Second Floor

Corsetlettes! Girdles!

Bargain time, when such well-made foundation garments, fresh and new, are so low a price! A firm weave of brocaded cotton with elastic goes down over the hips. Some of the corsetlettes have swan collar brassiere tops. Corsetlettes, 30's to 38's, and girdles 24 to 30.

FRIDAY BARGAIN. EACH.

\$1.09

—Foundation Garments, Second Floor

60 Boys' Pyjamas

"New Century" labelled sleeping suits in fancy broadcloths in sizes 8 to 16 years. Tunics have rayon frogs and single pocket. Pants have draw-tape and elastic. Suits. FRIDAY BARGAIN.

\$89c

—Boys' Pyjamas, Main Floor

At 2:30! Summer Shoes

Shoes that do "the white thing" by summer frocks. Glistening and cool, they're in pump, "T" strap and styles. Performance is in 233 man-made materials — heels are Cuban or spike — toes are rounded, as the younger girls prefer, or reeved. A grey gaudal and a trim grey-and-navy tie complete the grouping at this exceptional price. Sizes 4 to 7½, 8 to 12 D fittings.

FRIDAY BARGAIN. EACH.
